

Future Technologies gets repeat order for Offshore Water Maker for Drilling Rig

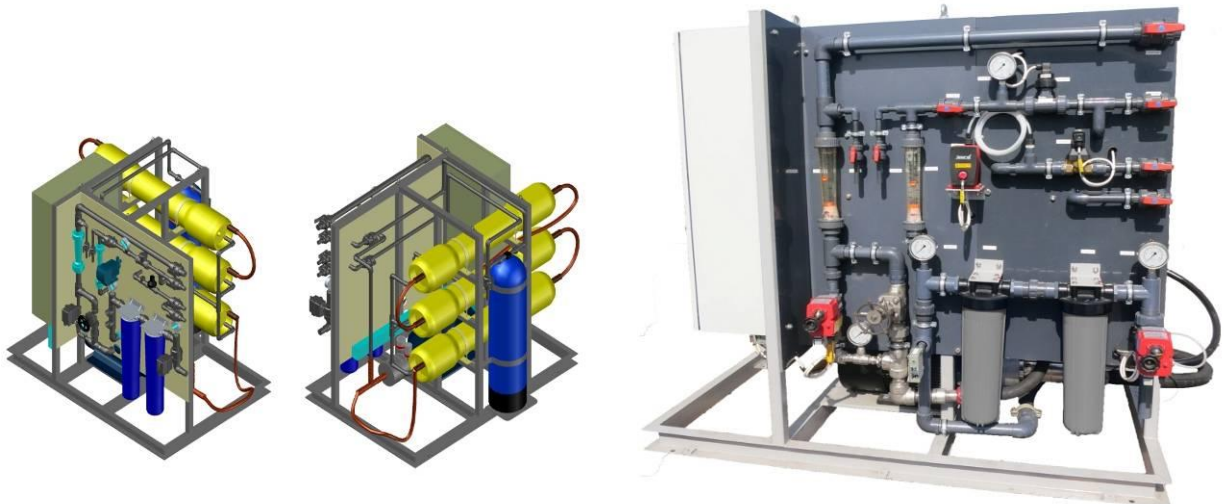

UAE, Dubai, July 2014

Future Technologies L.L.C., Dubai, UAE, has received another repeat order for an offshore water maker from an International Oil & Gas company based in the United Arab Emirates.

The total capacity of the system will be 45 m³/day and will be installed on an Offshore Drilling Rig

OF-SWRO-45 is a compact, reliable desalination system able to provide potable water from sea water source. The system produces up to 45,000 litres of fresh water per day from a sea water source (TDS max = 45,000 ppm). It is used for permanent access to fresh drinking water in marine applications. The system is equipped with an efficient Pre-Treatment System and a high-flow Reverse Osmosis Desalination Unit that removes salts, viruses and bacteria. The unit is easy to operate.

The compact and efficient design ensures to operate in harsh climate conditions

Future Technologies L.L.C. at a glance
